# Fragrance

Grasse Institute of Perfumery

In Grasse, the world's perfume capital, our international establishment offers you *summer schools* devoted to discovering the spellbinding world of fragrances.

### **First session: Discovery of raw materials and accords**

The history of perfumery.

The chemistry of perfume :

Some basic chemical knowledge to provide a better understanding of the structure of molecules possessing a sensory power.

The volatility and solubility of sensory molecules.

The vocabulary of perfume :

Olfactory concepts. Technical vocabulary.

An apprenticeship in raw materials and olfaction:

Natural and synthetic raw materials.

An apprenticeship in creating simple accords : jasmine, rose, carnation...

Visit to growers:

jasmine, lavender, tuberose...

**These courses are designed for non-professional persons who are passionate about fragrances.**

### **Second session : Genealogy and fragrance creation**

More synthetic and natural raw materials.

Genealogy of perfumes :

Feminine and Masculine fragrances.

Olfactive evaluation of famous perfumes.

Deeper understanding of how to create accords.

Creation and fragrance composition.
